The ADT DSC Impassa System can generate 3 different alarm sounds. A continuous siren alarm sound is indicative of an intrusion/burglary. A temporal/pulsed siren alarm sound is indicative of a fire alarm. An alarm sound that is 4 beeps, with a 5-second pause, then 4 beeps and repeat is indicative of carbon monoxide detection.

Maritime Mobile Service Identity (MMSI) is a unique 9 digit number that is assigned to an individual vessel. It is entered into DSC (Digital Selective Calling) radios and AIS (Automatic Identification System) units used on that vessel. Similar to a cell phone number, your MMSI number is your unique calling number for DSC radios or an AIS unit.

Aston Martin - Odd noise and DSC message -
This morning I started the Vantage (07 V8 manual) and got a message that said the alarm had been activated over night. We've had some serious winds and thunder overnight so I chalked it up to that. I drove off and heard a soft noise like a spring releasing (boing) and then...
