Maintenance is a continuous operation to keep the school building, furniture, and equipment in the best form for normal use, and to ensure the use of the school building as a shelter in case of an emergency caused by natural hazard events. The school maintenance programme should be systematic and pro-active to prevent the need for repairs.

Background: I had lived in Germany 1959-61 and gone to an Army high school there, and in many ways it was the best time of my life. When I came back to segregated Virginia for senior year, I hated it. After graduating and working over the summer, I went to the University of Virginia (UVA) in Charlottesville.

Survival skills are techniques that a person may use in order to sustain life in any type of natural environment or built environment. These techniques are meant to provide basic necessities for human life which include water, food, and shelter. The skills also support proper knowledge and interactions with animals and plants to promote the sustaining of life over a period of time.
