This is an addition to my 80+ Commonly Confused Concepts for PMP Certification.

[Direct Costs vs Indirect Costs in Project Management - PMP ...](#)

The Earned Value Management (EVM) and the Critical Path Method (CPM) are widely accepted methods and are often used simultaneously to evaluate project performance. The common practice is to use EVM to evaluate the status of project cost and forecast the project's cost at completion while using CPM to evaluate the status of project schedule and forecast the project's completion time.
