Neoclassical realism is an approach to foreign policy analysis. Initially coined by Gideon Rose in a 1998 World Politics review article, it is a combination of classical realist and neorealist – particularly defensive realist – theories.. Neoclassical realism holds that the actions of a state in the international system can be explained by intervening systemic variables, such as the ...

Neoclassical realism is an approach to foreign policy analysis that seeks to understand international politics by taking into account the nature of the international system—the political environment within which states interact. Taking neorealism as their point of departure, neoclassical realists argue that states respond in large

Structural realism, or neorealism, is a theory of international relations that says power is the most important factor in international relations. First outlined by Kenneth Waltz in his 1979 book *Theory of International Politics*, structural realism is subdivided into two factions: offensive realism and defensive realism. Structural realism holds that the nature of the international structure ...

The balance of power theory is a core tenet of both classical and neorealist theory and seeks to explain alliance formation. Due to the neorealist idea of anarchism as a result of the international system, states must ensure their survival through maintaining or increasing their power in a self-help world. With no
